All County Commissioners

COORDINATION AND DELIVERY OF COMPREHENSIVE HIV/AIDS SERVICES TO COUNTIES

On 17th February 2015, I launched the Global Initiative Campaign for the promotion of strategies to help the world overcome the challenges of HIV/AIDS among adolescents. It was reported that out of the 1.6 million Kenyans living with HIV, 16% are adolescent and youth. This reality demands that very specific measures and strategies be put in place targeting this age group if the challenge of HIV/AIDS is to be overcome.

To enable the Government respond and provide appropriate service and support to the children living with HIV/AIDS, it is necessary that proper and accurate information is made available in regard to the status of affected children mainly in schools across the country. In this connection, you are instructed to work with County Directors of Education, and County Directors of Medical Services to prepare a report with accurate and up-to-date data on all school going children who are HIV positive. Information on their guardians and those taking care of them should also be availed in the report.

The above information should be provided from all schools in the counties down to the sub-location level. The data should cover the following aspects:

- i. Number of children infected with HIV/AIDS
- ii. Number of guardians and other care givers of children infected by HIV/AIDS
- iii. Number of expectant mothers who are HIV positive; and
- iv. Number of breastfeeding mothers who are HIV positive.

STATE HOUSE
P.O. BOX 40530
NAIROBI, KENYA

The information should be submitted in the attached format so as to reach this office by 15th March, 2015.
